GASPAR

Doctors of Physical Therapy

Cardio-Pulmonary Rehab

URL: gasparpt.com

Gaspar Doctors of Physical Therapy is a PT-owned company located in San Diego County and Orange County, California. They have 10 clinics, focusing on musculoskeletal dysfunction, as well as many physical therapy specialities. They are well-known for treating patients with advanced heart and lung failure, and various neuroimmune axis disorders, like Long COVID. The founder, Paul D. Gaspar, DPT earned his CCS in 2006 after training and co-teaching with Scot Irwin, DPT at USC. Since that time the clinics have grown to serve in uncharted waters on the front lines of health care, treating some of the most complex patients for whom there are no established practice guidelines and no easy answers.

Gold Sponsor: Aspire Respiratory Products, LLC

URL: <https://emst150.com/>

Aspire Respiratory Products is headquartered in Cedar Point, NC, and is the maker of the EMST150, the EMST75 Lite, and the IA150 inspiratory adapter. Aspire has partnered with researchers since 2008 to create therapeutic devices targeting cough, swallowing, and increased breathing capacity. In trial after, the EMST150™ training system has shown significant improvements in the strength of healthy individuals, and individuals diagnosed with neurological/neurogenic diseases such as Parkinson's disease, stroke, multiple sclerosis, ALS, and spinal cord injury. Our goal is to responsibly improve the quality of people's lives with science behind every product we bring to market.
